tobii dynavox

Release Notes **Tobii Dynavox Gaze Viewer**

Introduction

The Tobii Dynavox Gaze Viewer is an assessment tool that helps to understand an individual user's physical capabilities, cognitive understanding, and use of an eye tracker.

System Requirements

- Windows 7, 8.1, or 10
- .NET Framework 4.5
- TGIS 2.4.0 or later, EyeX 1.1.0 or 1.5.1, Tobii Eye Tracking Core 2.8.2 or later

Customer support: For more information or support, please visit www.TobiiDynavox.com.

Release Version 1.1.5

Release date: 2018-04-11

New Features

- Made it possible to run the application without a license on I-Series devices (TGV-253)

Improvements

- Updated Statistics component version (TGV-249)
- Updated the default value of the Data Collection setting to not collect data (TGV-257)
- Updated the default visibility of the Data Collection description text to be visible (TGV-258)

Release Version 1.1.4

Release date: 2017-07-10

New Features

- Added Eye Tracker settings button to the Settings window (TGV-221)
- Gaze Viewer is localized to Danish, Spanish, Finnish, Hebrew, Italian, Japanese, Dutch, Norwegian, Portuguese, Swedish, and Chinese (TGV-227)

Improvements

- Updated user interface of the main controller window (TGV-233)
- Updated user interface of the licensing component (TGV-225)
- Updated the language selection mechanism for changing the application language (TGV-232)
- Removed user manuals from the application and added a link to the support web page instead (TGV-239)

Release Version 1.1.3

Release date: 2016-12-08

Improvements

- Fixed a bug where Gaze Viewer did not record gaze data if tracking of one eye was selected in TGIS (TGV-215)

Release Version 1.1.2

Release date: 2016–08–15

Improvements

- More robust license handling when license server is unresponsive (TGV-209)
- Fixed offset in gaze feedback when Windows working area is changed (TGV-212)

Release Version 1.1.1

Release date: 2016–05–31

New Features

- Added possibility for offline license activation and deactivation (TGV-181)
- Added support for PCEye Mini (TGV-195)

Improvements

- Improvements for licensing component (TGV-184)
- Fixed issues with saving videos to paths that include Japanese characters (TGV-186)
- Gaze Plot fixation points are now semi-transparent also when the heatmap is visible (TGV-200)
- Decreased video export time (TGV-202)

Release Version 1.1.0

Release date: 2015–09–15

New Features

- Gaze Viewer supports Windows 10 (TGV-110)
- Gaze Viewer has been translated to French and German (TGV-115)
- Receive update notifications and download new versions through the included Update Notifier software (TGV-21)

Improvements

- Added a setting button to the recorder window (TGV-72)
- The design of Gaze Viewer has been aligned with Gaze Point (TGV-87)
- The Gaze Plot and Heat Map now align when using EyeX (TGV-106)
- Gaze Viewer now records the screen configured in EyeX (TGV-107)
- Gaze Viewer works with both old and new versions of EyeX (TGV-122)
- The question mark button no longer points to an invalid URL (TGV-124)
- Gaze Viewer will not crash if both EyeX and TGIS are missing (TGV-174)
- Gaze Plot does not grow if the eye tracker can't find the user's eyes (TGV-109)
- "Hot" (orange to red) heat spots are always shown with a correlated fixation point (TGV-108)
- Added the option to allow Gaze Viewer to record statistics for future improvements (TGV-125)

Release Notes **Tobii Dynavox Gaze Viewer** v.1.8 - en-US
